### ABOUT ME

I'm a passionate UI/UX designer with a strong background in creating clean, thoughtful, and user-first designs. What started as a curiosity for visuals turned into a strong drive to design digital experiences that feel simple and natural for people. I enjoy blending creativity with problem-solving, always aiming to make products not just look good, but work better. I'm constantly learning, improving, and excited to bring meaningful design to real-world use.

### WORK EXPERIENCE

#### Sr. UI/UX Designer @ Bitzmatics Calicut

2024 - Present

- Successfully led the UI/UX design for a wide range of projects across domains including education, ERP, fintech, e-commerce, and static websites.
- Played a key role in both designing and implementing frontend interfaces, ensuring seamless user experiences across web and mobile platforms.
- Delivered high-quality prototypes, user flows, and visual designs with a strong focus on user needs and accessibility.

#### Full Stack Developer @ Luminar Technolab Calicut

2023 - 2024

- Worked as a Full Stack Developer, handling both backend and front-end development across multiple live projects.
- Actively contributed to frontend implementation using Angular and React, maintaining consistent UI/UX across components.

#### UI Designer, Graphic Designer @ Bitzmatics Calicut

2020 - 2023

- Designed modern, user-friendly interfaces for web, mobile, and branding projects using Figma, Adobe XD, and other design tools.
- Delivered complete visual solutions including UI prototypes, graphic assets, and video edits, ensuring cohesive and engaging brand experiences.
